

CDRAAP Carrier Consultations

Joint consultations will be conducted with each carrier to obtain his or her input regarding the evaluation and any proposed adjustments. No adjustment will be finalized until after the carrier consultations have taken place and the regular carrier's input has been considered by the route evaluation and adjustment team.

If the carrier requests a copy of the consultation form or the representative PS Form 3999 during the initial consultation, a copy will be provided to the carrier by the route evaluation and adjustment team as soon as practicable. If the carrier has additional comments after reviewing PS Form 3999, such comments will be immediately forwarded to the route evaluation and adjustment team for consideration in the evaluation and adjustment.

The district lead team or the route evaluation and adjustment team will conduct all carrier consultations. Consultations may be conducted in person or telephonically.

Carriers will be provided the evaluated time for their routes as soon as practicable after the initial consultation and in advance of the adjustment consultation. Any changes made to the proposed adjustments after the adjustment consultation will be communicated with the carrier in advance of implementing route adjustments.
